Imagine earth divided equally among all of us. Each person would receive 4.2 acres. Now imagine that everything you need—food, energy, home, clothing, appliances, gadgets—must come from those 4.2 acres. But it takes 17.2 acres per person to maintain the average American lifestyle. Inspired by Pope Francis, Lent 4.2 is a new way of observing Lent that helps us care for God’s creation by taking steps toward using only our fair share of its resources. Moving in the direction of 4.2 is essential for anyone walking in the footsteps of Jesus today.
